A woman with a pink headscarf is the central figure. The letters 'PRP' are written in a glowing, neon-style script across her forehead. She has her hands near her face, looking directly at the camera with a slight smile. The background is a solid teal color.

# PRP

A PRP procedure harnesses the power of your own body's growth factors to rejuvenate tissues. PRP has been around since the 1970s. PRP is a truly remarkable and natural treatment that has many benefits for the skin & Hair.

It also stimulates the growth of new collagen and improves blood supply, therefore helping your skin & Hair to carry a more youthful appearance and glow.

The treatment requires about eight sittings, each two weeks apart for best results. Along with it, one may have to apply medication like minoxidil.

## **PLATELET-RICH PLASMA FOR FACE : USD 650**

PRP is a truly memorable and natural treatment with many benefits for the skin. During this treatment your own concentrated platelets are injected into the skin with tiny painless needles, and this creates an improvement in the quality of the skin.

## **PRP TREATMENT FOR HAIR : USD 650**

PRP therapy for hair regrowth involves drawing out one's own blood and centrifuging. It is then injected on the scalp or rubbed on the scalp after performing a derma roller treatment in the areas which suffer from hair loss.

## **HYDRATION PRP : USD 700**

*It is a regular PRP with added booster. It can be used for Growth Factor, for face and for hair. For face can be used GF for whitening or scars.*

## **SUPER MAX PRP : USD 700**

*Stem cells are added during the treatment.*
