Sustainable Practices

We are committed to sustainable practices throughout our culinary services:

- ° Divert 100% of fryer oil waste (Bio-fuel)
- ° Locally-sourced foods and ingredients that are harvested, and produced locally, and/or sustainably wherever possible, and prepared in ways that respect and maintain quality, freshness, and pureness.

Green Glossary

Local food: In an effort to support local communities, and bring fresh reef fish, tuna and lobster from local fishermen to your fork, we source produce from within a 250-mile radius whenever possible. Because we have developed seasonal menus, some items may be subject to local availability. If any ingredient is out of season, we will make every effort to substitute the items with another sustainable option.
