COSMETIC TREATMENTS OFFERED:

BOTOX® COSMETIC

Botox is injected into the muscles to temporarily improve the look of both moderate and severe crow's feet and frown lines between the eyebrows. Each treatment will be tailored to your specific needs. It is recommended to use a combination of Botox and other facial fillers for the best result.

JUVEDERM VOLUMA XC

This multidimensional energy moving treatment addresses every major joint in the body, utilising just the right pressure at all the right angles. Each of the vertebrae will be worked to realign them and release stiff ligaments, making you feel younger, lighter and straighter.

JUVEDERM XC

Juvederm XC, also an injectable gel, is used to temporarily smooth out moderate to severe wrinkles and folds around the mouth and nose. This treatment is particularly effective at diminishing nasolabial folds.

PERFECTHA®

Perfectha is a highly advanced hyaluronic acid gel filler, it was developed to fill wrinkles, hydrate the skin and add volume. There are five different formulations of Perfectha available: Perfectha Fine Lines, aimed at treating superficial wrinkles; Perfectha Derm, for moderate wrinkles, frown lines and deeper furrow around the eyes and mouth; Perfectha Deep, for deep wrinkles, nasolabial folds a for contouring the face, cheeks, chin, and adding contour and volume to the lips; Perfectha Subskin to treat skin depressions, scarring and countouring; and Perfectha Complement, used to retouch alterations following other facial treatments. The different formulas can last from 4 to 18 months.

KYBELLA®

Kybella is the first and only FDA-approved injectable treatment to improve the appearance of moderate to severe fat beneath the chin by physically destroying fat cells.

To reserve a private session, contact your Thakuru. Advance booking is required.
